The “Opéra” collection is inspired by the most famous operas and by the classical ballet.

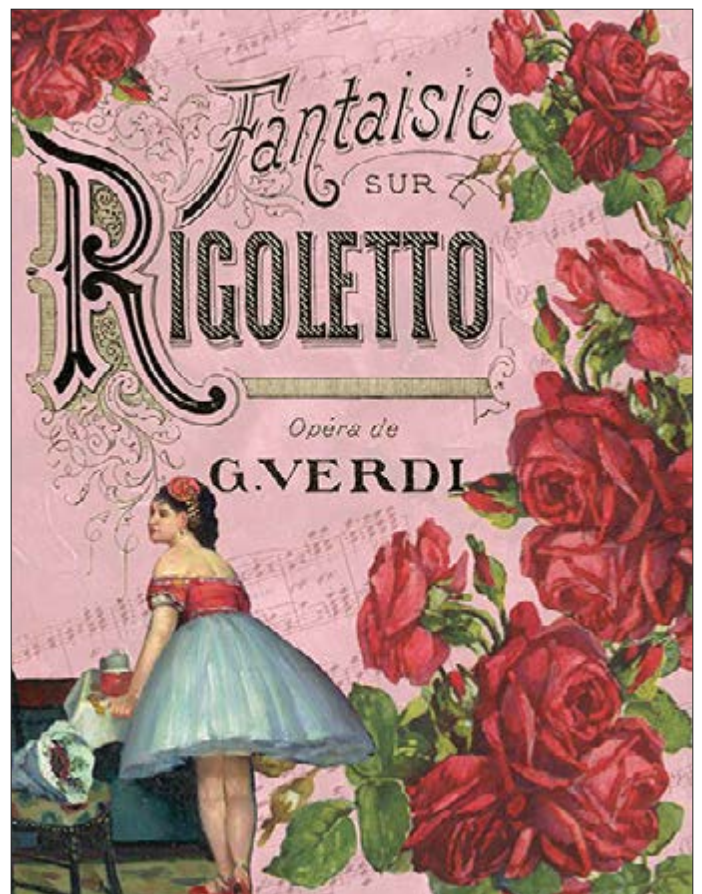

This collection, ideal for medium-sized small objects decoration, is characterized by mixed media backgrounds and romantic elements such as ballerinas, flowers, and laces.

With this new collection we present a novelty: the three-dimensional decoration.

The designs of the two new 3D papers double sided are printed on cardboard, easy to crop and designed to make a 3D effect on your creations.
